HEALTH & SAFETY MANAGEMENT SYSTEMS REVIEW

Do you have a health and safety management system at your farm?

Would you like a review conducted of your system by a set of independent eyes?

Please note the review tool assesses both general health and safety requirements as well as considering commodity specific health and safety issues.

All reviews include a report and action plan.

To learn more and book a review:

**VFF Farm Safety Services
Ph. 1300 882 833 or email

COST: FREE for all Victorian farmers

HEALTH AND SAFETY MANAGEMENT SYSTEMS REVIEW

What does the review entail?

The review considers:

- Type of farming
- Number of workers
- Number of contractors
- Types of machinery and equipment
- Training
- Policy and procedures
- Induction
- Safe systems of work

The review will give consideration to the system established to manage health and safety and includes an escorted tour of the farm.

The reviewer:

- Has 35 years' experience helping to implement health and safety systems.
- Is qualified as a health and safety auditor.
- Is an experienced lead auditor.
- Has audited some of the country's biggest employers.
- Works with small businesses to help them improve safety
- Has developed audit tools for small business health and safety, manual handling in aged care, the agricultural sector and workers compensation and injury management.
