To order Livestock Production Assurance National Vendor Declarations visit www.lpa.nlis.com.au or call 1800 683 111
For access to the NLIS database visit www.nlis.com.au or call 1800 654 743

NLIS Sheep & Goat tagging requirements:

- All sheep and most goat breeds born in Victoria from 1 January 2017 must be tagged with an electronic NLIS (Sheep) tag before being consigned to a saleyard, abattoir, agricultural show or to another property with a different PIC.
- Sheep and goats born prior to 1 January 2017 must have either a visually readable NLIS (Sheep) tag, or an electronic NLIS (Sheep) tag.
- All sheep and non-exempt goats born after 1 January 2019 and introduced into Victoria must be electronically tagged before being dispatched from a Victorian property unless they are already tagged with an electronic NLIS (Sheep) tag.
- After sheep and goats are moved between properties with different Property Identification Codes (often called a P2P movement) it is the responsibility of the buyer/receiver of the stock to complete a transfer on the NLIS database (nlis.com.au) within two days of the stock movement. This excludes movements of livestock directly to saleyards, public auctions on farm, abattoirs and knackeries.
- Pink Post-breeder tags are used to identify sheep and goats that are introduced onto a property and lose their tags.
- If sheep and goats are already identified with an electronic NLIS (Sheep) tag, do not attach a second electronic NLIS (Sheep) tag.
- NLIS (Cattle) tags must not be used to identify sheep or goats and electronic NLIS (Sheep) tags must not be used to identify cattle.
- Visual and electronic NLIS (Sheep) tags must not be removed from purchased sheep and goats.
- NLIS (Sheep) breeder and post-breeder tags can be attached to either ear, although fewer tags are lost from the left ear during shearing.
- If you tick the Ovine Johnes Disease (OJD) Gudair approved vaccinate box your tags will have a 'V' in a circle printed on them to indicate the sheep have been vaccinated with the approved OJD Gudair vaccine by 16 weeks of age, or vaccinated after 16 weeks of age with the approved OJD Gudair vaccine when the flock was in the SheepMap, or had undertaken a negative faecal 350 test in the two years preceding the vaccination or had a negative abattoir 500 status at the time of vaccination. If this does not apply to you please tick the N/A box.

Information to note:

1. The Department of Jobs, Precincts and Regions (the department) is committed to protecting your privacy. All personal information will be handled in accordance with the department's Privacy Policy and the *Privacy and Data Protection Act 2014* (Vic).
