## What are my responsibilities?

You are responsible for everyone on your farm, including:

- Employees
- Casuals
- Labour Hire
- Contractors
- Subcontractors
- Farm visitors
- Family and Friends

Health and safety laws require the provision and maintenance of a working environment that is safe for everyone and without risks to health.

## Why is this important?

Should someone be injured on your farm, you may need to provide documentation to show that you have provided a safe and healthy workplace. The best way to do this is to make sure you are familiar with the latest OH&S requirements and maintain up-to-date records.

## How much time does it take?

Up to three hours depending on the size of the farm.

## What does this service provide?

This service will help you set up the foundations of a simple process to manage health and safety on your farm.

The assistance will include:

- Providing specific advice for your commodity.
- With formats for:
  - Induction
  - Safety rules
  - Policies
  - Safe work procedures
  - Training
  - Chemical register
  - Engaging contractors
- Explaining the easiest way to keep records.
- Explaining how to manage contractor's health and safety.
- Provide you with confidence that safety can be managed as part of the way you do business.
