

VFF PENINSULA BRANCH SEMINAR

PASTURES & SOILS

Guest Speaker Fiona Baker
Beef Extension, Meat and Wool

1. Pasture management – how grass grows, what influences its persistence, how to decide when stock should go in and come out. i.e. grass lifecycle
2. Discussion on pasture pests (as they are a big influence on pasture performance) like RLEM, lucerne flea, red & black cockchafers
3. touch on the nutrient side of things as drivers of pasture growth: pH, lime and uptake of minerals

Guest Speaker: John Bowman
Browns Fertilisers
Lime, soils and livestock
